The actual implementation of the discourse on September 27, 2024:

The delegated representatives from the twin municipalities continued the talks about EU values as part of the SHINE project, under the framework of the Citizens, Equality, Rights and Values Programme (CERV). The topic of this day's discussion was gender equality.

Mayor opened and initiated the talks by introducing the current state of equality between men and women, progress made so far. Mayor of Mikóújfalu presented the state in their community. Participants then discussed their point of view of the achievements and the remaining areas where progress could be made. Some participants also shared experiences, specific issues they had, and discussed practical steps on how to promote equal opportunities. Additionally, the discussion explored how gender equality strengthens families and communities and contributes to make the small communities aware and inclusive.
